Arul Stephen, Assistant Professor, Department of Electronics and Communication Engineering is informed that his proposal of Research Project titled **“Detection of various cyber attacks in 5G IoT using machine learning techniques”** is approved and he has been sanctioned with a sum of Rs.125000/- as seed money.

In this context, he can proceed with the said project as per the procedure mentioned below and complete the project within a year.

1. The Principal Investigator should submit the project status on completion of one year.
2. He should get prior permission / approval from the authorities for any purchase from outside.
3. The Principal Investigator on completion of the Project shall submit the final report to the undersigned together with the bills / vouchers for expenditure incurred.
