INTRODUCTION

INTRODUCTION OF TOWN PANCHAYAT

Thiruneermalai is a Town Panchayat in Kancheepuram district in the Indian state of Tamil Nadu. Thiruneermalai Town Panchayat constituted in the year of 1899. The Town is coming under the administrative territory of Kancheepuram District. The Town extends over an area of 4.80 sq.km, Located in 18th Wards in town Panchayat, 2011 Census of Population 30658. The Town is situated along 24 KM South West of the Chennai City. It is a hill, and the temple on that hill, outside the Indian city of Chennai. It is chiefly known for its extensive use in filming, and also for being the most favoured temple for eloping couples to get married.

HISTORY OF THE TEMPLE

Thiruneermalai is one of the important Town Panchayat in Kancheepuram District and is very famous for the presents of a number of **Sree Aranganatha**. (300 Feet height). Temple architecture found at Thiruneermalai.

Among the various temples dedicated to Lord Vishnu, there are 108 temples which are designated to be DIVYA DESAMS. These are actually the places worshipped and sung by Ahlwars, the saintly poets who immersed themselves in the divine ocean of Lord Vishnu. Their whole life was devoted to the the 12 Alwars had

Thus, 106 temples have been addressed by the Tamil Alwars, who were pillars of the Sri Vaishnava tradition that was to evolve in Tamilnadu. The contrast in the nature of these temples is stunning, given the diversity in the Indian subcontinent. Even a virtual visit to these 106 shrines across the nation, is quite an experience, and is illustrative of this contrast, given the difference in the nature of temples in the various regions such as the Kaveri basin, Andhra Pradesh, Kerala, the Tirunelveli region, the Gangetic plains and the Himalayas.

It is said that once Thirumangai Alwar came here to get the Dharshan of the Perumal. At that time, the mountain was fully surrounded by water and he waited for six months to worship the Perumal. After all the water drained, he went up the mountain and worshipped the Perumal. The place where Thirumangai Alwar stayed is called as \"Thiru Mangai Alwarpuram\".

In this temple, muni Valmiki worshipped Eari Kidantha (aranganathan), Iruntha (Narasimar), and Nandantha (Thiruvikraman) Kola seva of the Perumal. After worshipping all the e sevas, he came down from the mountain to worship lord Rama, Knowing this lord Vishnu gae darshan as Sri Ramar and Lakshmi Piratti as Seetha and Aadishesha as lakshman and Sangu and chakram as Baratha Chatrukanan, Lord Vigneshwar as Sugreev and Garudan as Hanuman.

DIVINNESS OF THE TEMPLE

The Neervannar is found in found in Nindra (standing) thirukkalam facin his Thirumugham towards East direction. He is also named as Neelamugil Vannan. Prathyakasham (seva) for Thondaimann, Brighu Munivar and Maarkandeyar. Lord Ranganathar is found In Kidantha (Iying) position facing his thurumugham towards wouth direction and the Sayana kolam is referred to as “Manicka Sayanam”. He is lying on the Aadhisheshan under Ranga Vimaanam.

AUSPICIOUS DAYSS

Saturday are special, Vaikunda ekadasi and Masi maham are other famous festivals celebrated in this temple.

REGISTRAR

Goals:

- ❖ To build an understanding of the development agenda within institutes of Higher Education and an institutional capacity and training relevant to national needs, especially those of rural India.
- ❖ To re-emphasize the need for field work, stake-holder interactions and design for societal objectives as the basis of higher education.
- ❖ To stress on rigorous reporting and useful outputs as central to developing new professions.
- ❖ To provide rural India and regional agencies with access to the professional resources of the institutes of higher education, especially those that have acquired academic excellence in the field of science, engineering and technology, and management.
- ❖ To improve development outcomes as a consequence of this research. To develop new professions and new processes to sustain and absorb the outcomes of research.
- ❖ To foster a new dialogue within the larger community on science, society and the environment and to develop a sense of dignity and collective destiny.

Objectives of Unnat Bharat Abhiyan

- ❖ To engage the faculty and students of Higher Educational Institutions in understanding rural realities.
- ❖ To identify & select existing innovative technologies, enable customisation of technologies, or devise implementation methods for innovative solutions, as per the local needs.
- ❖ To leverage the knowledge base of the educational institutions for effective implementation of various government programmes.

- ❖ The Unnat Bharat Abhiyan (UBA) emerges as a vital and challenging initiative in steering towards comprehensive rural developments.

History of Unnat Bharat Abhiyan

The conceptualization of Unnat Bharat Abhiyan originated from the endeavours of a dedicated group of faculty members at the Indian Institute of Technology (IIT) Delhi, possessing expertise in rural development and appropriate technology. The concept evolved through extensive consultations with representatives from various technical institutions, Rural Technology Action Group (RuTAG) coordinators, voluntary organizations, and government agencies actively engaged in rural development. These deliberations took place during a national workshop hosted at IIT Delhi in September 2014, sponsored by the Council for Advancement of People's Action and Rural Technology (CAPART), Ministry of Rural Development, Government of India. The program received formal inauguration by the Ministry of Education (MoE) (formerly Ministry of Human Resource Development (MHRD)), with the President of India presiding, on November 11, 2014.

Background and Need

As foreseen by Gandhi Ji in his seminal work, 'Hind Swaraj', the western developmental paradigm, based on centralized technologies and urbanization, has given rise to serious problems like increasing inequity (leading to crime and violence), and climate change due to rapid ecological degradation. To ameliorate these problems, it is necessary to promote development of rural areas in tune with Gandhian vision of self-sufficient 'village republics', based on local resources and using decentralized, eco- friendly technologies so that the basic needs of food, clothing, shelter, sanitation, health care, energy, livelihood, transportation, and education are locally met. This should be the vision of holistic development of villages. Presently, 70% of the population in India lives in rural areas engaged in agrarian economy with agriculture and allied sector employing 51% of the total work-force but accounting for only 17% of the country's GDP. There are huge developmental disconnects between the rural and urban sectors such as inequity in health, education, incomes and basic amenities as well as employment opportunities - all causing great discontent and large-scale migration to urban areas. The

imperatives of sustainable development which are being felt more and more acutely all over the world also demand eco-friendly development of the villages and creation of appropriate employment opportunities locally. Increasing urbanization is neither sustainable nor desirable. So far, our professional higher education institutions have largely been oriented to cater to the mainstream industrial sector and, barring a few exceptions, have hardly contributed directly to the development of the rural sector. Unnat BhāratAbhiyān (UBA) is a much needed and highly challenging initiative in this direction.

Effective participation in the holistic development of rural clusters using

- ❖ Eco-friendly sustainable technologies
- ❖ Harnessing Local resources
- ❖ Creating employment opportunities
- ❖ Harnessing multifarious government schemes
- ❖ Customization of existing technologies
- ❖ Use of local knowledge

Participation in UBA

- ❖ As a prospective Mentoring Institute
- ❖ As a Participating Institute
- ❖ As a Subject Expert
- ❖ As a Voluntary Organization
- ❖ As a Developmental Agency
- ❖ As a Philanthropist or CSR Promoter
- ❖ As an NSS Member
- ❖ As an Enthusiastic Volunteer.

Themes:

- ❖ Organic Farming
- ❖ Water Management
- ❖ Renewables Energy
- ❖ Artisans
- ❖ Industries and Livelihood
- ❖ Basic Amenities
- ❖ Convergence

VISION AND MISSION OF INSTITUTION

Vision

To make the Institute an epitome of excellence in higher education by effectively providing high quality education and rigorous training to students in multiple streams of choice with ample scope for all round development to make them excel in their profession for betterment of the society.

Mission

- Effectively imparting knowledge and inculcating innovative thinking.
- Facilitating skill enhancement through add on courses and hands on training.
- Doing original, socially relevant, high quality research.
- Instilling the spirit of integrity, equity, professional ethics, and social harmony.

VISION AND MISSION OF UNNAT BHARATH ABHIYAN

Vision

Unnat Bharat Abhiyan is inspired by the vision of transformational change in rural development processes by leveraging knowledge institutions to help build the architecture of an Inclusive India.

Mission

The Mission of Unnat Bharat Abhiyan is to enable higher educational institutions to work with the people of rural India in identifying development challenges and evolving appropriate solutions for accelerating sustainable growth. It also aims to create a virtuous cycle between society and an inclusive academic system by providing knowledge and practices for emerging professions and to upgrade the capabilities of both the public and the private sectors in responding to the development needs of rural India.

REGISTRAR

Goals:

- To build an understanding of the development agenda within institutes of Higher Education and an institutional capacity and training relevant to national needs, especially those of rural India.
- To re-emphasize the need for field work, stake-holder interactions and design for societal objectives as the basis of higher education.
- To stress on rigorous reporting and useful outputs as central to developing new professions.
- To provide rural India and regional agencies with access to the professional resources of the institutes of higher education, especially those that have acquired academic excellence in the field of science, engineering and technology, and management.
- To improve development outcomes as a consequence of this research. To develop new professions and new processes to sustain and absorb the outcomes of research.
- To foster a new dialogue within the larger community on science, society and the environment and to develop a sense of dignity and collective destiny.

Objectives of Unnat Bharat Abhiyan

- To engage the faculty and students of Higher Educational Institutions in understanding rural realities.
- To identify & select existing innovative technologies, enable customisation of technologies, or devise implementation methods for innovative solutions, as per the local needs.
- To leverage the knowledge base of the educational institutions for effective implementation of various government programmes.
- The Unnat Bharat Abhiyan (UBA) emerges as a vital and challenging initiative in steering towards comprehensive rural developments.

History of Unnat Bharat Abhiyan

The conceptualization of Unnat Bharat Abhiyan originated from the endeavours of a dedicated group of faculty members at the Indian Institute of Technology (IIT) Delhi, possessing expertise in rural development and appropriate technology. The concept evolved through extensive consultations with representatives from various technical institutions, Rural Technology Action Group (RuTAG) coordinators, voluntary organizations, and government agencies actively engaged in rural development. These deliberations took place during a national workshop hosted at IIT Delhi in September 2014, sponsored by the Council for Advancement of People's Action and Rural Technology (CAPART), Ministry of Rural Development, Government of India. The program received formal inauguration by the Ministry of Education (MoE) (formerly Ministry of Human Resource Development (MHRD)), with the President of India presiding, on November 11, 2014.

Background and Need

As foreseen by Gandhi Ji in his seminal work, '**Hind Swaraj**', the western developmental paradigm, based on centralized technologies and urbanization, has given rise to serious problems like increasing inequity (leading to crime and violence), and climate change due to rapid ecological degradation. To ameliorate these problems, it is necessary to promote development of rural areas in tune with Gandhian vision of self-sufficient 'village republics', based on local resources and using decentralized, eco- friendly technologies so that the basic needs of food, clothing, shelter, sanitation, health care, energy, livelihood, transportation, and education are locally met. This should be the vision of holistic development of villages. Presently, 70% of the population in India lives in rural areas engaged in agrarian economy with agriculture and allied sector employing 51% of the total work-force but accounting for only 17% of the country's GDP. There are huge developmental disconnects between the rural and urban sectors such as inequity in health, education, incomes and basic

amenities as well as employment opportunities - all causing great discontent and large-scale migration to urban areas. The imperatives of sustainable development which are being felt more and more acutely all over the world also demand eco-friendly development of the villages and creation of appropriate employment opportunities locally. Increasing urbanization is neither sustainable nor desirable. So far, our professional higher education institutions have largely been oriented to cater to the mainstream industrial sector and, barring a few exceptions, have hardly contributed directly to the development of the rural sector. Unnat Bhārat Abhiyān (UBA) is a much needed and highly challenging initiative in this direction.

Effective participation in the holistic development of rural clusters using

- Eco-friendly sustainable technologies
- Harnessing Local resources
- Creating employment opportunities
- Harnessing multifarious government schemes
- Customization of existing technologies
- Use of local knowledge

Participation in UBA

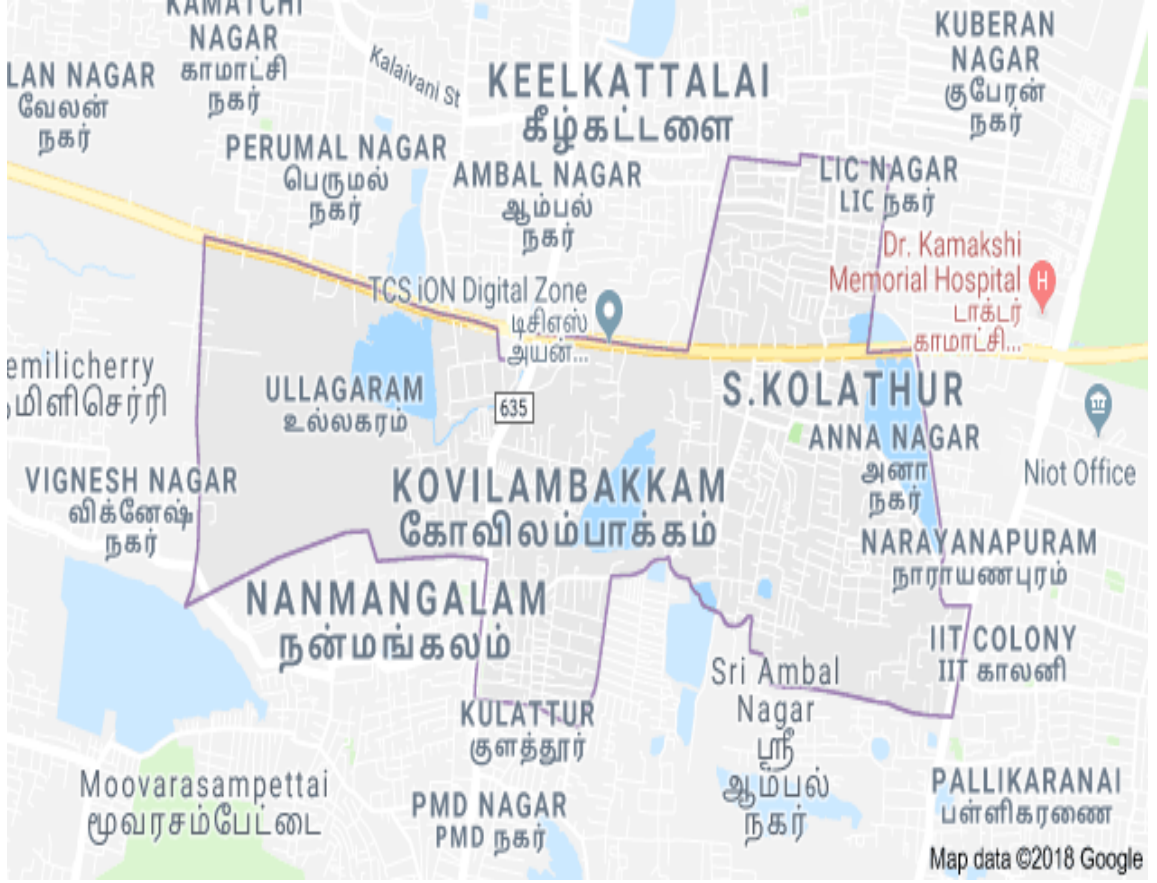

- As a prospective Mentoring Institute
- As a Participating Institute
- As a Subject Expert
- As a Voluntary Organization
- As a Developmental Agency
- As a Philanthropist or CSR Promoter
- As an NSS Member
- As an Enthusiastic Volunteer.

Themes:

Event Report

Date: 12-01-2024

Name of the event : Promoting Awareness of Traffic Pollution among Residents in the Kovilambakkam Area.

Date of the event : 10-01- 2024

Venue : Kovilambakkam Signal Main Road

Beneficiary : Kovilambakkam people & school students

UBA coordinator : Dr.M.Prabhakaran

No of student volunteers: 195

Activity description:

Raising Traffic Pollution Awareness among Kovilambakkam Residents with Support from the UBA Convener. To effectively promote awareness of traffic pollution among residents in the Kovilambakkam area, the NSS (National Service Scheme) volunteer team and NSS officer can undertake the following activities: Volunteers can organize short plays or skits in public areas like markets, parks, and bus stops to educate people about the causes and effects of traffic pollution. Hold interactive sessions where NSS volunteers can address the public, highlighting the risks of traffic pollution on health and the environment. Volunteers can visit homes in the area to distribute leaflets and provide brief explanations on how residents can contribute to reducing traffic pollution. Conduct workshops for students, encouraging them to become ambassadors for cleaner air and share information with their families. Arrange seminars or discussion sessions with local residents on understanding the harmful effects of traffic pollution and ways to mitigate it. In partnership with local authorities, volunteers can organize events that promote better traffic management, carpooling, and the use of public transport. Propose ideas like installing pollution monitors or enforcing emission checks for vehicles. Encourage residents to use bicycles or walk short distances. Volunteers can organize a cycle rally to promote non-motorized transportation options. Promote the use of public transport, carpooling, and electric vehicles through campaigns and displays in public areas. Organize tree planting activities in Kovilambakkam to reduce pollution and enhance green cover. Advocate for converting busy traffic areas into more pedestrian-friendly zones with greener spaces. NSS volunteers can run online awareness campaigns through social media platforms like Whats App, Face book, and Instagram to reach a wider audience. Sharing short videos, info graphics, and facts about traffic pollution can help amplify the message.

The students eagerly participated the traffic awareness Event.

Volunteers address the importance of traffic awareness to the people.

EVENT REPORT

Date: 12-02-2024

Name of the event : Women's Equality Awareness Program for Residents in the Kovilambakkam Area

Date of the event : 10-02- 2024

Venue : Kovilambakkam

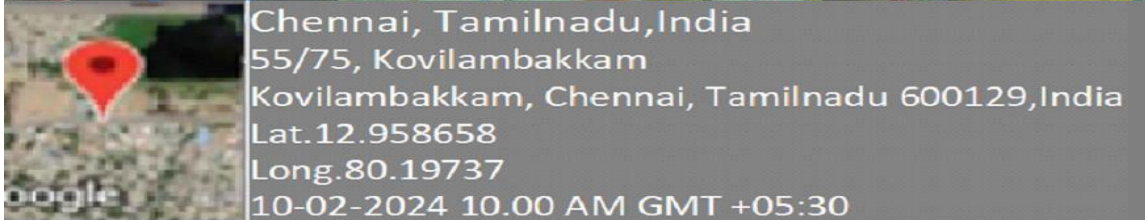

Beneficiary : Kovilambakkam people & women

UBA coordinator : Dr.M.Prabhakaran

No of student volunteers: 240

Activity description:

Raising Women's Equality Awareness Among Kovilambakkam Residents with Support from the UBA Convener. To promote **Women's Equality Awareness** among residents of the Kovilambakkam area, the NSS (National Service Scheme) volunteers and the NSS officer can organize a comprehensive program. This program should focus on educating and empowering women while fostering community understanding of gender equality. Below are some suggested activities: Conduct open forums in community centers or public spaces where local women can share their experiences and discuss issues related to women's rights, gender equality, and social challenges. Invite successful women leaders, activists, and professionals to speak about their journey, rights, and the importance of gender equality in various spheres of life (economic, social, political, etc.). Conduct workshops that educate both men and women about the importance of gender equality in homes, workplaces, and the community. Organize skill-building sessions for women on topics such as financial literacy, entrepreneurship, leadership, and vocational training to boost their economic independence. Offer free self-defense training for women and girls to enhance their confidence and safety. Organize art exhibitions or essay competitions for students and residents on the theme of gender equality and women's empowerment. Conduct a women's equality march or rally through the streets of Kovilambakkam with banners and slogans that highlight the importance of gender parity in education, employment, and social rights. Hold candlelight vigils or solidarity marches to raise awareness against violence, discrimination, and harassment faced by women. Partner with women-centric NGOs or government organizations working for women's welfare to gain insights, training materials, and support in addressing local issues. Advocate for better implementation of women's welfare schemes and policies at the local level through meetings with local government officials and women's commissions.

The students eagerly participated the women Equality awareness.

Volunteers address the importance of women equality awareness to the people.

Activity description:

Swachh Hi Seva - Plastic Waste Cleanup Drive for Residents in the Kovilambakkam Area Support from the UBA Convener. The Swachh Hi Seva initiative is a nationwide campaign in India that focuses on cleanliness, waste management, and promoting a plastic-free environment. Organizing a Plastic Waste Cleanup Drive in the Kovilambakkam area can be an impactful local event, encouraging community involvement and environmental responsibility. Introduction to the Swachh Hi Seva campaign and the importance of plastic waste management. Volunteers and residents will be divided into groups to clean different areas within Kovilambakkam. Segregating plastic waste from other waste materials for proper disposal and recycling. Educating the community about reducing single-use plastics and adopting eco-friendly alternatives. The Unnat Bharat Abhiyan (UBA) is a government initiative aimed at connecting higher educational institutions with villages for the overall development of rural India. The support from the UBA Convener ensures: Mobilizing students and local volunteers to participate. Providing necessary resources like gloves, collection bags, and transport for collected plastic. Organizing awareness campaigns and educational programs alongside the cleanup to spread knowledge about sustainability.

The students eagerly participated the Plastic Awareness event.

Volunteers dump the plastics in the bags.

Activity description:

Raising Cleanliness Awareness Program for Schools in the Kovilambakkam Support from the UBA Convener. Organizing a Cleanliness Awareness Program for Schools in the Kovilambakkam Area with the participation of Volunteers and Officer can play a pivotal role in spreading the message of cleanliness among students. Here's a suggested framework for the event: To raise awareness about the importance of cleanliness, hygiene, and sanitation. To encourage students to adopt and promote cleanliness practices at school, home, and in their community. To teach waste segregation, recycling, and sustainable practices. Welcoming the students, staff, volunteers, and the Officer. Brief overview of the Swachh Bharat Mission and how students play a vital role in it. The Officer can address the gathering with a motivational speech on the importance of cleanliness and community service. Discuss the role of students in maintaining a clean environment and their responsibilities as future citizens. A practical session on proper hygiene habits such as hand washing, waste disposal, and keeping surroundings clean. Demonstrations on segregating biodegradable and non-biodegradable waste. Engaging students through quizzes, drawing competitions, or role plays focused on cleanliness. Prizes for students who actively participate or demonstrate innovative cleanliness ideas. Volunteers and students taking a collective pledge to maintain cleanliness in their school and surroundings. "My School, My Responsibility" pledge wall where students can sign their commitment. An optional mini-cleanup drive around the school premises with the participation of NSS volunteers and students. Encourage students to create cleanliness clubs in their schools for consistent follow-up. Officer or school principal to conclude the event by appreciating the efforts and emphasizing continuity.

Activity description:

Raising Awareness on Carbon Dioxide Emissions for the Public in Kovilambakkam area Support from the UBA Convener. Raising awareness about carbon dioxide (CO₂) emissions is crucial to addressing climate change and promoting sustainable practices. Organizing a public awareness event in the Kovilambakkam area with support from the UBA Convener and volunteers can help educate the local community on the importance of reducing CO₂ emissions and adopting greener lifestyles. To inform the public about the causes and effects of carbon dioxide emissions on climate change. To encourage individuals and households to take actionable steps in reducing their carbon footprint. To promote sustainable practices such as using renewable energy, reducing plastic usage, and planting trees. Welcome speech by the UBA Convener, explaining the purpose of the event and the role of the community in reducing CO₂ emissions. An environmental expert or university professor (through UBA) to give a detailed talk on: What CO₂ emissions are and their sources (e.g., transport, industry, deforestation). The impact of excess CO₂ on global warming and climate change. How reducing CO₂ emissions can improve air quality and mitigate climate change. Demonstrating how individuals can calculate their own carbon footprint and identify areas for reduction. Tips on energy-efficient practices at home (e.g., switching to LED lights, using public transport, carpooling, etc.). Volunteers can guide residents on small but impactful changes such as: Reducing single-use plastics. Composting kitchen waste. Using bicycles or public transportation. Installing solar panels or using renewable energy sources. To symbolically and practically contribute to reducing CO₂, the event can include a tree-planting drive where residents and volunteers plant saplings in designated public spaces. Volunteers can lead groups to specific locations for the tree-planting activity. Use interactive sessions like quizzes and environmental games to engage younger participants.

VISION AND MISSION OF INSTITUTION

Vision

To make the Institute an epitome of excellence in higher education by effectively providing high quality education and rigorous training to students in multiple streams of choice with ample scope for all round development to make them excel in their profession for betterment of the society.

Mission

- Effectively imparting knowledge and inculcating innovative thinking.
- Facilitating skill enhancement through adds on courses and hands on training.
- Doing original, socially relevant, high-quality research.
- Instilling the spirit of integrity, equity, professional ethics and social harmony.

VISION AND MISSION OF UNNAT BHARATH ABHIYAN

Vision

Unnat Bharat Abhiyan is inspired by the vision of transformational change in rural development processes by leveraging knowledge institutions to help build the architecture of an Inclusive India and to have a paradigm shift in academic and research programs of the country.

Mission

Develop the necessary mechanism and proper coordination among educational institutions, implementation agencies (District administration - Panchayat Raj Institutions) and the grassroots level stakeholders to enable effective intervention at the field level.

Select suitable rural clusters and effectively participate in the holistic development of these clusters using eco-friendly sustainable technologies and local resources creating sufficient employment opportunities in the process, harnessing multifarious government schemes, customized use of existing technologies and use of knowledge as per the local needs.

Reorienting the academic curricula and research programs in higher educational institutions to make them more responsive to the needs of the time and to bring in holistic development and enrich knowledge of students about issues of villages/society.

SURVEY REPORT

As part of the Unnat Bharat Abhiyan program, the following areas in Nanmangalam have been covered by VISTAS social volunteers:

- ❖ Arundhathiyar colony
- ❖ Indira Nagar
- ❖ Thulukkan cholai
- ❖ Vaidhiyalingham Nagar
- ❖ Veeramani Nagar

The primary objective of the survey was to identify key issues affecting these communities and propose actionable solutions to improve the overall well-being of the residents.

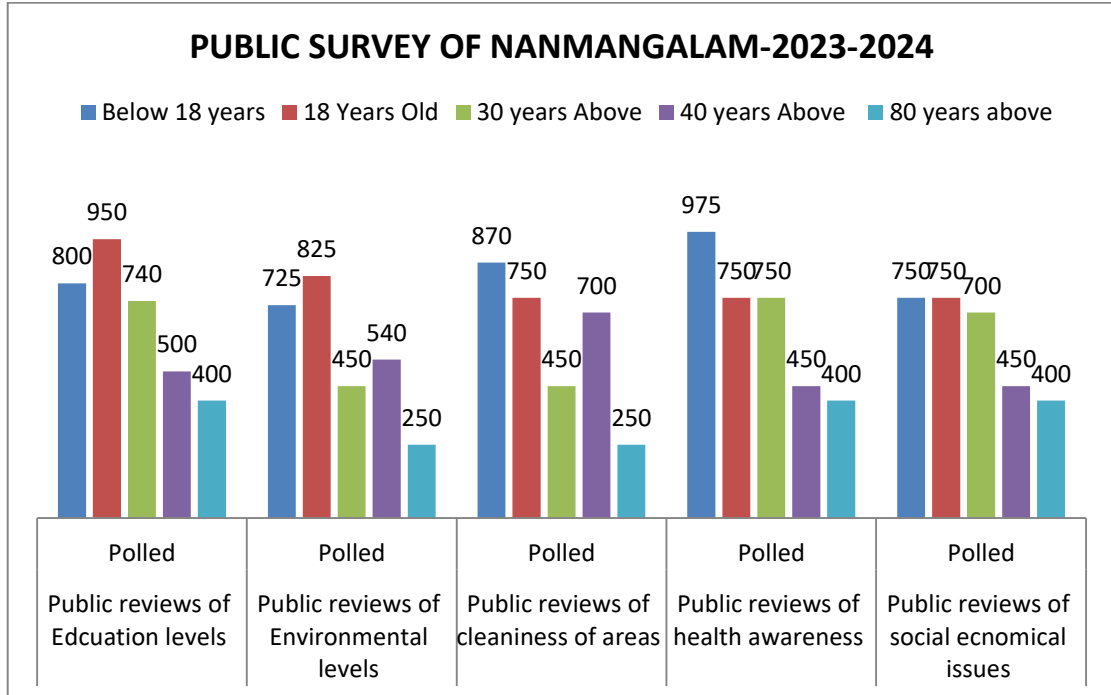

Through a detailed analysis, several key issues have been identified in these communities:

1. Education
2. Environmental Concerns
3. Swacch Bharat (Clean India)
4. Health and Hygiene Awareness
5. Social economical Awareness

We have prepared a survey report by outlining these issues and proposed solutions.

SURVEY OUTCOMES

Survey report outlining the issues and proposed solutions

Important areas to raise knowledge among village people about social and economic difficulties and environmental levels were found by the survey results.

Name of the event:	Organic Composite' Campaign at Nanmangalam Area
Date of the event:	22 August 2023
Venue:	Nanmangalam Area
Beneficiary:	Nanmangalam village people
UBA Coordinator:	Dr. M. Prabhakaran
No of Student Volunteers:	210

Activity description:

On August 22, 2023, the Organic Composite Campaign was successfully conducted in the Nanmangalam Area, aimed at promoting sustainable agricultural practices and the benefits of organic composting among local residents. This initiative sought to encourage environmentally friendly practices that can enhance soil health and improve crop yields.

The primary objectives of the campaign were:

- ❖ To educate the community about the importance of organic composting.
- ❖ To demonstrate the benefits of using organic fertilizers over chemical alternatives.
- ❖ To provide hands-on training on how to create and use organic compost.
- ❖ To promote sustainable agricultural practices within the village.

Program Overview: The event began with an opening address by Dr. M. Prabhakaran, who highlighted the significance of organic farming and composting in achieving sustainability. The program featured a range of educational activities and interactive sessions designed to engage the community.

Activity description:

On 20 September 2023, an Alcohol Awareness Program was organized in the Nanmangalam area, aimed at educating the local community about the dangers of alcohol abuse. The event saw the participation of 180 villagers, who engaged in discussions and interactive sessions.

Dr. M. Prabhakaran, who led the program, highlighted the health risks associated with excessive alcohol consumption and its impact on families and society. The program also focused on the importance of seeking help for addiction and promoted healthier lifestyle choices.

The event fostered a deeper understanding of the consequences of alcohol abuse and encouraged the community to work together to reduce its prevalence. The villagers showed great interest and actively participated in the discussions, making the event a success.

Breast Cancer Awareness program at Nanmangalam Area

Date of the event	16 November 2023
Venue	Nanmangalam Area
Beneficiary	Nanmangalam village people
UBA Coordinator	Dr. M.Prabhakaran
No of Student Volunteers	210

Activity description:

On 16 November 2023, a Breast Cancer Awareness Program was held at Nanmangalam village. The event, organized under the guidance of Dr. M. Prabhakaran, aimed to educate the local women about breast cancer, with a focus on early detection, symptoms, and prevention.

280 student volunteers participated in the event, actively engaging with the villagers to spread crucial information. The volunteers, following the instructions of the UBA convenor, explained the early symptoms of breast cancer, the importance of regular self-examinations, and preventive measures.

The awareness program was well-received by the community, particularly by the women, who found the information valuable in understanding how to detect signs early and seek timely medical help. The initiative contributed to increasing health awareness in the region.

Activity Description

On 08 December 2023, the Swacch Seva - Awareness Program on Corona Vaccination was conducted in the Nanmangalam area. The program aimed to raise awareness about the importance of COVID-19 vaccination and encourage the community to get vaccinated to protect themselves and others.

Dr. M. Prabhakaran led the initiative, addressing 220 participants from the village. He spoke on the effectiveness of vaccines in reducing the spread of the virus and safeguarding against severe illness. The session included informative talks on vaccine safety, myths, and the need for completing the vaccination schedule.

The event was well-received by the villagers, many of whom expressed their willingness to get vaccinated and encourage others to do the same. The program played a crucial role in dispelling fears and providing accurate information on COVID-19 vaccination.

REGISTRAR

Goals:

- To build an understanding of the development agenda within institutes of Higher Education and an institutional capacity and training relevant to national needs, especially those of rural India.
- To re-emphasize the need for field work, stake-holder interactions and design for societal objectives as the basis of higher education.
- To stress on rigorous reporting and useful outputs as central to developing new professions.
- To provide rural India and regional agencies with access to the professional resources of the institutes of higher education, especially those that have acquired academic excellence in the field of science, engineering and technology, and management.
- To improve development outcomes as a consequence of this research. To develop new professions and new processes to sustain and absorb the outcomes of research.
- To foster a new dialogue within the larger community on science, society and the environment and to develop a sense of dignity and collective destiny.

Objectives of Unnat Bharat Abhiyan

- To engage the faculty and students of Higher Educational Institutions in understanding rural realities.
- To identify & select existing innovative technologies, enable customisation of technologies, or devise implementation methods for innovative solutions, as per the local needs.
- To leverage the knowledge base of the educational institutions for effective implementation of various government programmes.
- The Unnat Bharat Abhiyan (UBA) emerges as a vital and challenging initiative in steering towards comprehensive rural developments.

History of Unnat Bharat Abhiyan

The conceptualization of Unnat Bharat Abhiyan originated from the endeavours of a dedicated group of faculty members at the Indian Institute of Technology (IIT) Delhi, possessing expertise in rural development and appropriate technology. The concept evolved through extensive consultations with representatives from various technical institutions, Rural Technology Action Group (RuTAG) coordinators, voluntary organizations, and government agencies actively engaged in rural development. These deliberations took place during a national workshop hosted at IIT Delhi in September 2014, sponsored by the Council for Advancement of People's Action and Rural Technology (CAPART), Ministry of Rural Development, Government of India. The program received formal inauguration by the Ministry of Education (MoE) (formerly Ministry of Human Resource Development (MHRD)), with the President of India presiding, on November 11, 2014.

Background and Need

As foreseen by Gandhi Ji in his seminal work, '**Hind Swaraj**', the western developmental paradigm, based on centralized technologies and urbanization, has given rise to serious problems like increasing inequity (leading to crime and violence), and climate change due to rapid ecological degradation. To ameliorate these problems, it is necessary to promote development of rural areas in tune with Gandhian vision of self-sufficient 'village republics', based on local resources and using decentralized, eco- friendly technologies so that the basic needs of food, clothing, shelter, sanitation, health care, energy, livelihood, transportation, and education are locally met. This should be the vision of holistic development of villages. Presently, 70% of the population in India lives in rural areas engaged in agrarian economy with agriculture and allied sector employing 51% of the total workforce but accounting for only 17% of the country's GDP. there are huge developmental disconnects between the rural and urban sectors such as inequity in health, education, incomes and basic amenities as well as employment opportunities - all causing great discontent and large-scale migration to urban areas. The imperatives of sustainable development which are being felt more and more acutely all over the world also demand eco-friendly development of the villages and creation of

appropriate employment opportunities locally. Increasing urbanization is neither sustainable nor desirable. So far, our professional higher education institutions have largely been oriented to cater to the mainstream industrial sector and, barring a few exceptions, have hardly contributed directly to the development of the rural sector. Unnat Bhārat Abhiyān (UBA) is a much needed and highly challenging initiative in this direction.

Effective participation in the holistic development of rural clusters using

- Eco-friendly sustainable technologies
- Harnessing Local resources
- Creating employment opportunities
- Harnessing multifarious government schemes
- Customization of existing technologies
- Use of local knowledge

Date of the Event :17-Nov -2023

Organized by: VISTAS UBA in association with Pozhichalur Municipality office

Venue: Government high school Pozhichalur

Beneficiary: Pozhichalur Peoples and Surroundings

UBA coordinator: Dr.M. Prabhakaran

No otudent volunteers: 190

Programme outcome

The event significantly heightened awareness of the importance of reading in enhancing academic performance and personal development. Interactive sessions and engaging activities, including storytelling and book-sharing, captured the students' interest and encouraged them to explore diverse literary genres. Feedback from participants indicated a renewed enthusiasm for reading, with many students expressing a desire to visit local libraries and read more frequently. Moreover, the event fostered a sense of community, as parents and teachers participated actively in discussions about strategies to cultivate reading habits at home and in the classroom. This collaboration highlighted the shared responsibility of nurturing a reading culture among students. Additionally, the initiative helped strengthen partnerships between VISTAS UBA, local educational institutions, and the municipality, setting the stage for future literacy programs and workshops. In conclusion, the event not only promoted reading habits among students but also united the community in a common goal of fostering a love for literature, ultimately contributing to the overall educational development of Pozhichalur and its surroundings.

Venue:PozhichalurPanchayat.office

Beneficiary: Pozhichalur Peoples and Surroundings

UBA coordinator: Dr.M. Prabhakaran

No of student volunteers: 190

Programme outcome

Participants received practical demonstrations on effective sanitation methods, including proper handwashing techniques, waste management, and the importance of clean drinking water. The interactive sessions encouraged community members to actively participate, leading to heightened awareness about personal and environmental hygiene. Feedback from attendees indicated a marked increase in understanding of hygiene-related issues and a commitment to implementing better practices within their households. Many participants expressed gratitude for the knowledge gained and a desire for ongoing education in health and hygiene. The program also fostered stronger community ties, as residents came together to discuss challenges related to sanitation and share solutions. Overall, the Hygiene Program not only enhanced awareness of hygiene practices among the people of Pozhichalur and its surroundings but also laid the groundwork for future initiatives aimed at promoting public health and well-being in the community.

Programme outcome

The outcomes of the Child Labour Awareness program had a profound impact on both the volunteers and the community in Pozhichalur. Volunteers gained a deeper understanding of the critical need for awareness about child labour in the area, effectively informing attendees about the associated realities and risks. The event encouraged robust dialogue within the community, emphasizing the importance of education and vigilance against child exploitation. It also strengthened partnerships among local organizations, schools, and the Panchayat office, facilitating a more coordinated approach to addressing child labour. Additionally, the program inspired a renewed commitment among participants to advocate for children's rights, motivating parents and community members to actively monitor and prevent child labour. Many attendees expressed a strong interest in ongoing workshops and educational sessions to further enhance their understanding of related issues, indicating a desire for continued engagement. The event fostered a sense of solidarity among community members, creating a collective identity focused on safeguarding children's futures. Moreover, local schools began exploring the integration of child rights education into their curricula, recognizing the importance of equipping students with knowledge about their rights. Ultimately, this event not only raised awareness but also mobilized community action, paving the way for future initiatives that promote education and well-being for all children in Pozhichalur

REGISTRAR

History of Unnat Bharat Abhiyan (UBA)

The conceptualization of Unnat Bharat Abhiyan originated from the endeavours of a dedicated group of faculty members at the Indian Institute of Technology (IIT) Delhi, possessing expertise in rural development and appropriate technology. The concept evolved through extensive consultations with representatives from various technical institutions, Rural Technology Action Group (RuTAG) coordinators, voluntary organizations, and government agencies actively engaged in rural development. These deliberations took place during a national workshop hosted at IIT Delhi in September 2014, sponsored by the Council for Advancement of People's Action and Rural Technology (CAPART), Ministry of Rural Development, Government of India. The program received formal inauguration by the Ministry of Education (MoE) (formerly Ministry of Human Resource Development (MHRD)), with the President of India presiding, on November 11, 2014.

Background and Need

As foreseen by Gandhi Ji in his seminal work, '**Hind Swaraj**', the western developmental paradigm, based on centralized technologies and urbanization, has given rise to serious problems like increasing inequity (leading to crime and violence), and climate change due to rapid ecological degradation. To ameliorate these problems, it is necessary to promote development of rural areas in tune with Gandhian vision of self-sufficient 'village republics', based on local resources and using decentralized, eco-friendly technologies so that the basic needs of food, clothing, shelter, sanitation, health care, energy, livelihood, transportation, and education are locally met. This should be the vision of holistic development of villages. Presently, 70% of the population in India lives in rural areas engaged in agrarian economy with agriculture and allied sector employing 51% of the total work-force but accounting for only 17% of the country's GDP.

There are huge developmental disconnects between the rural and urban sectors such as inequity in health, education, incomes and basic amenities as well as employment opportunities - all causing great discontent and large-scale migration to

urban areas. The imperatives of sustainable development which are being felt more and more acutely all over the world also demand eco-friendly development of the villages and creation of appropriate employment opportunities locally. Increasing urbanization is neither sustainable nor desirable. So far, our professional higher education institutions have largely been oriented to cater to the mainstream industrial sector and, barring a few exceptions, have hardly contributed directly to the development of the rural sector. Unnat Bhārat Abhiyan (UBA) is a much needed and highly challenging initiative in this direction.

Goals:

- To build an understanding of the development agenda within institutes of Higher Education and an institutional capacity and training relevant to national needs, especially those of rural India.
- To re-emphasize the need for field work, stake-holder interactions and design for societal objectives as the basis of higher education.
- To stress on rigorous reporting and useful outputs as central to developing new professions.
- To provide rural India and regional agencies with access to the professional resources of the institutes of higher education, especially those that have acquired academic excellence in the field of science, engineering and technology, and management.
- To improve development outcomes as a consequence of this research. To develop new professions and new processes to sustain and absorb the outcomes of research.
- To foster a new dialogue within the larger community on science, society and the environment and to develop a sense of dignity and collective destiny.

Objectives of Unnath Bharat Abhiyan

- To engage the faculty and students of Higher Educational Institutions in understanding rural realities.
- To identify & select existing innovative technologies, enable customisation of technologies, or devise implementation methods for innovative solutions, as per the local needs.

- To leverage the knowledge base of the educational institutions for effective implementation of various government programmes.
- The Unnat Bharat Abhiyan (UBA) emerges as a vital and challenging initiative in steering towards comprehensive rural developments.

Effective participation in the holistic development of rural clusters using

- Eco-friendly sustainable technologies
- Harnessing Local resources
- Creating employment opportunities
- Harnessing multifarious government schemes
- Customization of existing technologies
- Use of local knowledge

Participation in UBA

- As a prospective Mentoring Institute
- As a Participating Institute
- As a Subject Expert
- As a Voluntary Organization
- As a Developmental Agency
- As a Philanthropist or CSR Promoter
- As an NSS Member
- As an Enthusiastic Volunteer.

Event Report

Name of the Event	Awareness on Carbon dioxide – CO2 Emission among public of Vengaivasal Gram Panchayat area.
Date of the Event & Time	30-October-2023
Organized by	VISTAS UBA CELL & Vengaivasal Gram Panchayat
Venue	Vengaivasal Gram Panchayat
Beneficiary	Vengaivasal Gram Panchayat people
UBA Coordinator	Dr. M. Prabhakaran
No. of Student Volunteers participated	200

Nearly 200 student volunteers participated in “Creating awareness about carbon dioxide (CO₂)” emissions among the public in Vengaivasal Gram Panchayat areas, which is crucial for promoting sustainable development and mitigating climate change. CO₂ emissions have reached a record high of 425.22 parts per million, primarily driven by the burning of fossil fuels, deforestation, and biomass burning.

Raising Awareness in Gram Panchayat Areas by

- ☞ Educate the public on the causes and effects of CO₂ emissions and promote sustainable practices, such as renewable energy, energy efficiency, and sustainable transportation
- ☞ Encourage community-led initiatives to reduce CO₂ emissions.
- ☞ Collaborate with local authorities to develop and implement climate action plans

By working together to raise awareness and promote sustainable practices, we can reduce CO₂ emissions and create a better future for our communities.
